

Testimonials

We had our beautiful house built in 2006 and we are still very pleased with the quality of the construction and the incredible attention to detail. We spent a great deal of time looking for a general contractor in High Point with a good reputation. We are glad we listened to everyone and chose Craig Shoe, Inc.. What I was *most* impressed with, was how Craig kept an open line of communication with us during the entire process. Whenever we had a question or concern, it was quickly handled *personally* by Mr. Shoe.

K. Jonasson

Mr. Shoe,

I don't know that I made it clear to you that I really appreciate the work you did on my home. I told Fran the other day that I wish I'd had you build the thing in the first place. That's about as high a compliment as I can pay. Your folks did a *really* good job. Everything is slick, sturdy, beautiful. We both really are pleased with the rooms and with the quality.

Thank you,

Skip

Dear Craig,

Deb and I wanted to take a moment to tell you how happy we are with our dream home. When we first saw the home in its initial stage of construction we fell in love with the floor plan you had selected and the attention to detail. The home site, while under construction, was clean at the end of each work day. We have built a few homes over the years and I had *never* seen that before! The choice of plans you had made fit our needs to a T! We were looking for a home that we could live on one level, but had additional space for our family upstairs when they came to visit. This was the one.

Since we purchased the home in the early stage of construction, we wanted to be involved in selecting cabinets, color, flooring, and all the details that make a house *our* home. I was a bit apprehensive at first, since we can be very selective, and wondered if you would be willing to accommodate our selections (and sometimes our indecision about details). Not only did you support our ideas, but were so helpful in adding suggestions of your own using your years of experience to lead us in the right direction. As construction progressed, you met our deadlines even with the weekly additions or minor changes we made. As we neared completion, we decided to add a pool and circle drive. That was not in the plans, but you provided us with the contacts and supervised the installation to be sure we would be satisfied. I guess the biggest surprise was finishing a custom home *on schedule* as promised. I know it wasn't easy with the changes we made, but you delivered our dream home on time, the way we wanted it, and within our agreed budget.

We have loved living here and have had such a great time building memories. We even had our son's and daughter-in-law's wedding and reception at our home.

So Deb and I want to thank you and let you know that we truly appreciate all your efforts and wish you continued success. We will be sure to tell any of our friends who want to build a new home to contact you.

With much appreciation,

Mark & Deb Kalstrup
